The attached tables list those plants under the East German Ministry of Mining and Smelting showing losses for 1952. The plants are broken down into those directly under the Minister, those under the Main Administration of Iron Industry, those under the Main Administration of Nonferrous Metal Industry, and those under the Main Administration of Ore Mining Industry. The actual loss of each plant may be obtained by adding the "Price Support Deductions according to Plan", the "Loss after Computing the Price Supports according to Plan", the "Initial Outlay Expenditure", and deducting the "Profit after Computing the Price Supports according to Plan". All figures are in thousands of east marks.
